Literature and Nation disects the relationship between Britain and India from 1800 to 1900, using key literary and historical texts. Books from Kim to Mansfield Park and Midnight's Children are used in conjunction with primary source material to better understand the complicated cultural encounters that occurred between the two countries.

Midnight Nation is a thought-provoking story with religious overtones about a police officer in limbo who goes on a cross-country search for his soul, but encounters some mighty obstacles along the way. When Midnight Nation was first released in 2000, J. Michael Straczynski's provocative storytelling and the fantastic art of Gary Frank (Action Comics, Squadron Supreme) captivated readers with its mix of action, horror, and drama built around a message of hope, loyalty, and sacrifice. Collected now for the first time in a deluxe, oversized hardcover, this edition includes Midnight Nation #1-12, the Wizard #1/2 issue, a spectacular cover gallery, and never-before-seen extras!

A police officer in limbo goes on a cross-country search for his soul, but encounters some mighty obstacles along the way.

Detective David Gray is investigating a murder when, without warning, he wakes up in the "in-between", a place where the people who have slipped between the cracks of society walk unseen among the living. He discovers he is there because horrific creatures known as The Men have stolen his soul and he has one year to retrieve it or join their ranks forever.

The vital inside account of American democracy in its darkest hour, from the rise of autocracy unleashed by Trump to the January 6 insurrection, and a warning that those forces remain as potent as ever—from the congressman who led the first impeachment of Donald J. Trump. "If there is still an American democracy fifty years from now, historians will be very grateful for this highly personal and deeply informed guide to one of its greatest crises. We should be grateful that we can read it now."—Timothy Snyder, #1 New York Times bestselling author of On Tyranny In the years leading up to the election of Donald Trump, Congressman Adam Schiff had already been sounding the alarm over the resurgence of autocracy around the world, and the threat this posed to the United States. But as he led the probe into Donald Trump's Russia and Ukraine-related abuses of presidential power, Schiff came to the terrible conclusion that the principal threat to American democracy now came from within. In Midnight in Washington, Schiff argues that the Trump presidency has so weakened our institutions and compromised the Republican Party that the peril will last for years, requiring unprecedented vigilance against the growing and dangerous appeal of authoritarianism. The congressman chronicles step by step just how our democracy was put at such risk, and traces his own path to meeting the crisis—from serious prosecutor, to congressman with an expertise in national security and a reputation for bipartisanship, to liberal lightning rod, scourge of the right, and archenemy of a president. Schiff takes us inside his team of impeachment managers and their desperate defense of the constitution amid the rise of a distinctly American brand of autocracy. Deepening our understanding of prominent public moments, Schiff reveals the private struggles, the internal conflicts, and the triumphs of courage that came with defending the republic against a lawless president—but also the slow surrender of people that he had worked with and admired to the dangerous immorality of a president engaged in an historic betrayal of his office. Schiff's fight for democracy is one of the great dramas of our time, told by the man who became the president's principal antagonist. It is a story that began with Trump but does not end with him, taking us through the disastrous culmination of the presidency and Schiff's account of January 6, 2021, and how the anti-democratic forces Trump unleashed continue to define his party, making the future of democracy in America more uncertain than ever.

When a giant wave destroys his village, Mau is the only one left. Daphne—a traveler from the other side of the globe—is the sole survivor of a shipwreck. Separated by language and customs, the two are united by catastrophe. Slowly, they are joined by other refugees. And as they struggle to protect the small band, Mau and Daphne defy ancestral spirits, challenge death himself, and uncover a long-hidden secret that literally turns the world upside down.

Featuring an introduction by Neil Gaiman! "J. Michael Straczynski is, without question, one of the greatest science fiction minds of our time." -- Max Brooks (World War Z) For four decades, J. Michael Straczynski has been one of the most successful writers in Hollywood, one of the few to forge multiple careers in movies, television and comics. Yet there's one story he's never told before: his own. In this dazzling memoir, the acclaimed writer behind Babylon 5, Sense8, Clint Eastwood's Changeling and Marvel's Thor reveals how the power of creativity and imagination enabled him to overcome the horrors of his youth and a dysfunctional family haunted by madness, murder and a terrible secret. Joe's early life nearly defies belief. Raised by damaged adults—a con-man grandfather and a manipulative grandmother, a violent, drunken father and a mother who was repeatedly institutionalized—Joe grew up in abject poverty, living in slums and projects when not on the road, crisscrossing the country in his father's desperate attempts to escape the consequences of his past. To survive his abusive environment Joe found refuge in his beloved comics and his dreams, immersing himself in imaginary worlds populated by superheroes whose amazing powers allowed them to overcome any adversity. The deeper he read, the more he came to realize that he, too, had a superpower: the ability to tell stories and make everything come out the way he wanted it. But even as he found success, he could not escape a dark and shocking secret that hung over his family's past, a violent truth that he uncovered over the course of decades involving mass murder. Straczynski's personal history has always been shrouded in mystery. Becoming Superman lays bare the facts of his life: a story of creation and darkness, hope and success, a larger-than-life villain and a little boy who became the hero of his own life. It is also a compelling behind-the-scenes look at some of the most successful TV series and movies recognized around the world.

"In the sixties, a fireball struck Pederson, Illinois, granting all the children who were in utero at the time fantastic powers--113 in all. Dubbed 'Specials,' these children grew into adulthood cloistered together, forming rivalries, friendships, and enmities. Some became heroes, some criminals, and others simply lived out an ordinary existence. After years of petty fights, squabbles and grabs for power, a new unifying mission became clear, a purpose to their existence that they had all been unable to see before: to change the world."--Back cover.

Il capolavoro di J. Michael Straczynski e Gary Frank in un'edizione ricca di contenuti speciali. Oltre ai dodici numeri della maxiserie, questo eBook presenta lo speciale 1/2, un'inedita postfazione del famoso scrittore e studi per la realizzazione delle tavole. L'edizione definitiva della storia di David Grey, poliziotto che dopo un incontro con alcune misteriose creature si trova in sospeso tra la vita e la morte. Accompagnato dall'enigmatica Laurel, comincerà un viaggio attraverso gli Stati Uniti per capire cosa gli è successo e cercare di recuperare l'anima.

With an introduction by Neil Gaiman!
