A distended radiator is  
the only sure sign of  
damage to the oil cooler,  
along with broken hoses

# Access Free 2000 Dt466e

which would prevent the engine from running in the first place. If a radiator has been stressed beyond factory specifications, this can cause the structure to bend and warp. The radiator will look like a football. In the worst case scenario, this will cause the fins to burst out and look like teeth
