Motorsport have more than their fair share of tuning Starlet and Glanza turbos. The 4E-FTE 16v engine is a neat little package and offers some surprising gains for relatively little work.

4EFTE Tuning Guide - Fusion Motorsport

On the 4E-FTE engine the manifold is a particularly poor design in terms of tuning/flow. The ports on cylinders 2 and especially 3 are very restrictive and can result in engine failure if boost pressure is raised with this restriction in place! An easy and cheap way of removing this restriction is to grind out the restrictions down the ports.

Tuning Developments now offer a range of 4EFTE Forged Motor Packages to suit everyones needs, we have started with our Stage 1 Forged motor which is uprated in all the right places, keeping consideration to cost yet still being able to run a reliable 250bhp. For those that are looking to push more power than above we have our Stage 2 4EFTE Forged Engine that adds a few more well chosen parts to make a rock solid base for a big power setup, we then have our Stage 3 4EFTE Forged Engine which ...

Tuning Developments

Here at Tuning Developments we have put together a selection of parts which can transform your Starlet GT Turbo or Glanza V in to the ultimate street or trackcar, suitable for both the race track and the drag strip. The package is based around our popular Stage 2 forged 4EFTE engine, along with fitting and fluids, this is accompanied by another of our big sellers, the EP82/EP91 TD04 Turbo Kit.

Engine Performance Specifications. The 4EFTE engine that powers the Starlet GT and Glanza produces 135 horsepower at 6,400 revolutions per minute (RPM). The maximum torque of 116 pound-feet is delivered at 4,800 RPM. This level of performance allows the Starlet to accelerate from 0 to 60 miles per hour in 8.2 seconds.

4EFTE Engine Specifications

The 4EFTE engine was throttle-body fuel injected, had a displacement of 1,331 cc, and featured dual overhead camshafts. Ignition duty was handled by a distributor, and a Toyota-produced CT9 turbo provided the boost. An electrically controlled wastegate set the boost at either 5.8 psi or 9.4 psi, depending on the setting.

4EFTE Engine Specifications | It Still Runs

Tuning Developments Performance Valve Spring Kits use a single spring setup with the optimum base spring pressure to suit the 4E/5E Cylinder Head, they have been custom developed for Tuning Developments ONLY and are the best valve springs on the market today. We have tested these valve springs in 4EFTE's running to 9000rpm with no issues, and these are run in our own Demo "TD82" Starlet Turbo producing over 450+ BHP
