GFA-555se power amplifier represents the pinnacle of ADCOM's audio engineering. This Nelson Pass design broke ground when it came out in the 80's, getting rave reviews and providing tank-like reliability at a decent price. That these are much in demand after so much time is strong testament to their value and

durability.

ADCOM High performance audio amplifiers, pre-amplifiers ...

Though the Adcom GFA-555MKII is globally well projected amplifier, it has some flaws. Circuit analysis This amplifier employs a discrete differential Class-A front-end followed by a Class-A voltage gain stage (VAS) which amplify the input signal to the voltage required at the output of the amplifier.
