BS 5975:2006 gives recommendations for the design use of falsework on construction sites. This code has drawn together all those aspects that need to be considered when preparing a falsework design, and in so doing has included recommendations for material, design and work on site. Because the success of falsework is closely tied up with its

The BS5975 code of practice developed because of several high-profile temporary works failures in the 1960's and 70's. Some of these failures caused fatalities and cumulatively they led to the publication of the Bragg report in 1974. This was followed by the publication of BS5975 in 1982. The first temporary works guidance in the world.
