SAP BW/4HANA in a Nutshell | openSAP

To ensure success in SAP Modeling and Data Acquisition with BW powered by HANA Certification Exam (C_TBW50H_75), SAP recommends combining education courses and hands-on experience to prepare for your certification exam as questions will test your ability to apply the knowledge you have gained in training and professional experience.

SAP BW/4HANA has introduced a new era in data warehousing at SAP. Further steps towards simplification, flexibility, and performance are now possible with SAP HANA as the proven technological basis. SAP BW/4HANA offers modern concepts for data management, operation, and modeling and thus opens the door for fully innovative application scenarios. This book will show you how the SAP HANA database influences the Business Warehouse and how you can optimize your system. As a practical guide, the book is aimed at experienced SAP BW experts as well as decision makers who need a well-grounded overview. The authors address the versions SAP BW/4HANA 1.0 and SAP BW 7.5 in equal measure, highlighting new functions and differences. The book also focuses on the migration options and conversion tools for moving to SAP BW/4HANA. Use this reference book to enter the world of SAP BW with SAP HANA as the database platform! - Migration, sizing, operation, data management with SAP BW/4HANA and SAP BW 7.5 on HANA - The new central source Systems SAP HANA and ODP - New modeling options, mixed scenarios, LSA++, and differences compared to SAP BW 7.5 - The role of BW in operational SAP reporting

What is SAP BW/4HANA? More importantly, what can it do for you? Between these pages, you'll explore the answers to these questions, from simplified data models and SAP BW/4HANA Analytics to automated data lifecycle management. You'll find step-by-step instructions for installation and setup, a guide to administrative tasks to keep your SAP BW/4HANA system in tip-top shape, and the low-down on security in your new system. Explore the data warehouse of the future! Highlights: -SAP HANA -SAP BW/4HANA Analytics -Installation and deployment -Data modeling -Reporting and analytics -Data lifecycle management -Administration -Security -Data warehousing solution

Learn what it takes to become an SAP Certified Application Associate as you progress, step-by-step, through the key functions and business scenarios. Practice makes perfect, and this book provides you with a sampling of practice questions, so you'll understand the different types of questions and learn how to answer correctly based on the detailed explanation of why each of the answers is correct or incorrect. Plus, get the inside scoop on special tips and tricks you can use to prepare for and pass the exam. Explore practical, tried-and-true advice about how to use particular functions, explanations based on real-world business scenarios, as well as useful study tips and much more. Key Objective Coverage Learn the topics, terminology, and definitions as they'll be presented on the exam. Practice Questions and Answers Get familiar with the different types of exam questions and find tips and strategies for answering correctly. Real-World Scenarios Further your career by understanding how SAP solutions are used in everyday business scenarios. Take-Aways and Test Tips Learn how to improve your odds of doing well in each section of the exam.

"Ready for SAP BW/4HANA 2.0? This comprehensive guide will teach you all there is to know about the next generation business warehouse from SAP! Start with a fresh installation or migrate from an existing system. Then understand the new architecture, explore administration tasks with SAP HANA Studio, learn to model and analyze data, and find out how to connect to frontend BI tools"--

Provides an overview to the exam's topics, including a "Need to Know" list that identifies areas that must be understood in-depth. Includes exercises that can be performed, usually with a smallest BW server. Contains practice test questions that assess the reader's knowledge of the current exam topics. Serves as a complement to the classroom training provided by SAP.

Dignity. Isn't that what everybody really wants? You, me, your parents, your children, your friends, your colleagues at work: All of us want to be treated with dignity. The homeless person in the park; the elderly in nursing homes; students, teachers, principals; Christians, Jews, Muslims; taxi drivers, store clerks, waiters, police officers; prisoners and guards; immigrants; doctors, patients, nurses; the poor, the wealthy, the middle class; big nations, small nations, people without a homeland. Dignity. Everybody wants it, craves it, seeks it. People's whole lives change when they're treated with dignity and when they're not. Evan Ramsey, now serving a 210-year prison sentence for shooting and killing his high school principal and another student in Bethel, Alaska, told criminologist Susan Magestro: "I was picked on seven hours a day every day and the teachers didn't do anything to help me ... I told [my foster mother] and [my principal] more than a dozen times about all the bullying I was subjected to. They never did anything to help me.... If I can prevent someone from having the experience I went through, I want to do that. I killed people.... Don't respond with violence even if you're provoked. There's no hope for me now but there is hope for you." - From "The Realities and Issues Facing Juveniles and Their Families, The Warning Signs: Evan Ramsey Bethel, Alaska," by Susan Magestro, ... Fundamentally, dignity is about respect and value. It means treating yourself and others with respect just because you're alive on the planet. It's recognizing that you and everyone else have a right to be here, and that you belong. It means valuing your own and others' presence and special qualities. It means honoring who you are and what you have to offer.

Transform your logistics operations with SAP S/4HANA! With this introduction, see what SAP has in store for each supply chain line of business: sales order management, manufacturing, inventory management, warehousing, and more. In 2014, the Australian Government was investing into creativity and innovation as part of a growth strategy. Critical & creative thinking ranked 4th in the Australian Curriculum after Literacy, Numeracy and ICT, across all subjects. In the Arts, it made explicit references to how to achieve this with the use of visual journals. In a way, this represented a sea change in the way creativity was being taught. But by what means? Where would teachers get practical help to make this happen? The Visual Diary Guides provide just this kind of help. Produced by an artist-teacher, in two integrated parts they address both students and teachers while aligning with the Australian Curriculum. They begin by identifying 'inspiration' as the fuel for the creative activity. But it is hard to store inspiration for later use. And even harder to make it fun! The books argue that the 'storage' is that ordinary art journal, the Visual Diary, which in the present classroom setting is often wasted as a portfolio. Its explosive creative potential is there to be unlocked. The books set out to do that in the classroom. Contrary to common belief, a structured approach with limits and boundaries is required for creativity to truly flourish. The Visual Diary becomes a student's personal treasure-trove much like an ordinary diary. The main premise of these books is that everyone has an artist in them and a trustworthy guide is needed to locate it. The Visual Diary Guide - Student Work book is written for students in accessible language. Through more than 40 specially designed activities, students find and capture inspiration and ideas that personally resonate for them. It opens the door for students to explore the visual culture they are immersed in, making it accessible in the art room for refinement, analysis and development as a supplement to the art room program.

There are a lot of different ways to go live with a BW on HANA system - do you know which path to take? Whether you're performing a new installation, a sidecar installation, or a full migration, this book shows you how to choose the right scenario and perform the necessary steps to accomplish it - from creating HANA-optimized cubes to reporting.
