Danny Tozer has a problem: she just inherited the powers of Dreadnought, the world ’ s greatest superhero. Until Dreadnought fell out of the sky and died right in front of her, Danny was trying to keep people from finding out she ’ s transgender. But before he expired, Dreadnought passed his mantle to her, and those secondhand superpowers transformed Danny ’ s body into what she ’ s always thought it should be. Now there ’ s no hiding that she ’ s a girl. It should be the happiest time of her life, but Danny ’ s first weeks finally living in a body that fits her are more difficult and complicated than she could have imagined. Between her father ’ s dangerous obsession with “ curing ” her girlhood, her best friend suddenly acting like he ’ s entitled to date her, and her fellow superheroes arguing over her place in their ranks, Danny feels like she ’ s in over her head. She doesn ’ t have time to adjust. Dreadnought ’ s murderer—a cyborg named Utopia—still haunts the streets of New Port City, threatening destruction. If Danny can ’ t sort through the confusion of coming out, master her powers, and stop Utopia in time, humanity faces extinction.
