~~Compaq Presario CQ56 Notebook PC and HP G56 Notebook PC~~

Installing incorrect drivers or following incorrect troubleshooting procedures could damage your computer. Many Compaq Presarios are identified on the front of the computer by a series number rather than the actual model number. For example, your Presario may be labeled with 5000 on the front of the case, but it is actually part of a 5000 series PC. The correct model number may be 5WV283. If ...

~~Maintenance and Service Guide—Hewlett Packard~~

Compaq (a portmanteau of Compatibility And Quality, occasionally referred to as CQ prior to its final logo) was an American information technology company founded in 1982 that developed, sold, and supported computers and related products and services. Compaq produced some of the first IBM PC compatible computers, being the first company to legally reverse engineer the IBM Personal Computer.

This book is the structural engineer's "companion volume" to the four Eurocodes on the structural use of timber, concrete, masonry and steelwork. For the student at higher technician or first degree level it provides a single source of information on the behaviour and practical design of the main elements of the building structure. With plenty of worked examples and diagrams, it is a useful textbook not only for students of structural and civil engineering, but also for those on courses in related subjects such as architecture, building and surveying whose studies include the design of structural elements.

Structural Elements Design Manual: Working With Eurocodes is the structural engineers ' companion volume ' to the four Eurocodes on the structural use of timber, concrete, masonry and steelwork. For the student at higher technician or first degree level it provides a single source of information on the behaviour and practical design of the main elements of the building structure. With plenty of worked examples and diagrams, it is a useful textbook not only for students of structural and civil engineering, but also for those on courses in related subjects such as architecture, building and surveying whose studies include the design of structural elements. Trevor Draycott the former Buildings and Standards Manager with Lancashire County Council ' s Department of Property Services has 50 years experience in the construction industry. For 20 years he was also an associate lecturer in structures at Lancashire Polytechnic, now the University of Central Lancashire in Preston. For many years he served on the Institution of Structural Engineers, North West Branch, professional interview panel and the North West regional committee of the Timber Research and Development Association. Peter Bullman worked for Felix J Samuely and Partners, Taylor Woodrow Construction and Building Design Partnership before joining Bolton Institute, now the University of Bolton, as a lecturer in structural engineering. He has taught structural design on higher technician, degree and postgraduate courses, and has run courses to prepare engineers for the IStructE Chartered Membership examination.
