Recreation Business: Strategies for Success is a conversation about leisure-based businesses for classroom and online courses. From the point of view of a senior scholar who has studied leisure and its social contexts for 5 decades, Kelly begins by introducing the scope and variety of recreation businesses and discusses major issues in the field. Then he turns toward social and behavioral science research about recreation and leisure that has been developed since 1970, answering the question, how does this research guide and direct the beginning and operation of a recreation business? Throughout the book, Kelly encourages dialogue and learning through questions, cases, research ideas, debates, online resources, and more. The beginning is that leisure is different. The focus is on what a recreation business sells or rents: an experience. The crucial element is quality. And decades of study have yielded a lot of insight into how leisure experiences can be raised to a level that will attract and retain clients. John R. (Jack) Kelly

For the entire history of human civilization, gold has enraptured people around the globe. The Nazis was no less enthralled by it, and felt that gold was the solution to funding Hitler's war machine. Gold was also on the mind of FDR across the Atlantic, as he worked with Europe's other leaders to bring the United States and the rest of the world out of a severe depression. FDF was hardly the first head of state to turn to gold in difficult times. Throughout history, it has been the refuge of both nations and people in trouble, working at times when nothing else does. Desperate people can buy a loaf of bread or bribe a border guard. Gold can get desperate nations oil to keep tanks running or munitions to fight a war. If the price is right, there is always someone somewhere willing to buy or sell gold. And it was to become the Nazi's most important medium of exchange during the war. Chasing Gold is the story of how the Nazis attempted to grab Europe's gold to finance history's bloodiest war. It is filled with high drama and close escapes, laying bare the palate of human emotions. Walking through the tale are giants of world history, as well as ordinary people called upon to undertake heroic action in an extraordinary time.
