GX390 - Troubleshooting | Honda
Just acquired a Honda GX390 13HP engine, bought it blind so expected to find something wrong. On pulling the starter rope the engine reaches the compression stroke but won't turn over the compression stroke. If you take the spark plug out the engine will then turn over the compression stroke. Piston rotates freely.

Can anyone help me diagnose this problem? This only happens no choke it sputters like this for a few minutes before it shuts off. I've already replaced the...

Honda GX-270 engine problems - YouTube
You could also have a little bit of water in the fuel or carburetor, and make sure the fuel cap is venting properly to allow fuel to drain out of the fuel tank. Another possibility is a faulty electronic ignition module that may be causing problems when the engine heats up some.

Honda GX340 engine cutout problem | Hobbyist Forums
Do you guys have trouble with Honda GX coils just dying? I had a 5.5hp GX on my pressure washer...no spark. I bought a stump grinder with a 13hp GX and its literally perfect in every way and then all of a sudden...no spark. I ordered a new coil for the stump grinder but I can't figure out if this is just me or if this is a common thing.

Honda GX Coils Always Dying? | Hearth.com Forums Home
Honda GX series commercial grade engines are legendary. For reliable, easy-starting, fuel efficient performance, insist on a Honda GX Series Engine.

Honda gx390 no spark I bought a 2016 Cormidi 85 ran great. Then all of a sudden no spark. Bought a new plug and coil still no spark disconnected low oil switch and ground, no spark. What am i missing here? I need this machine running any help would be met with much praise.

Honda gx390 no spark | Lawn Mower Forum | Jacks Small Engines
Re: Honda GX390 kicks back when starting. Either the valve clearance isn't right or the cam's decompressor is bad. Although the spring is on the lever and the lever rotates still doesn't mean the part that actually bumps the lifter isn't badly worn or broken without actually removing the cam and checking.

Honda GX390 kicks back when starting - PPETEN
Been working on a 5.5 HP Honda GX160 engine on a pressure washer. Older unit but not used a lot. The problem last summer was the engine would start, run a short time, and die. The first thing I did was remove and clean the fuel tank and the screen inside the tank. I have a good flow into the sediment bowl on the carb. Still started, ran and died.

Honda GX160 runs 30 seconds and dies | LawnSite.com ...
They were the Ex-Cell model with the Honda 13hp GX390 commercial engine and the General pump - 4gpm and 3700 psi. I couldn't get either one to start despite following the instructions to the letter. After about 20 pulls, if it did start, it would stall right away.

Honda Small Engine Troubleshooting & Repair | Repair Clinic
Fuel Filter. A clogged fuel filter can cause engine problems. If someone leaves fuel in the engine for a long time, some of the fuel's ingredients evaporate. The sticky stuff left behind clogs the fuel filter and interferes with engine operation. If you find old fuel in the engine, drain it from the fuel tank.

Quick Guide for GX120, GX160, & GX200: Honda Small Engines ...
Always check the easy things first. Check for problems on both the engine and the product powered by the engine. Check for broken, bent, or loose terminals. Check for corroded wires, connectors, or terminals. Check for a pinched, cut, or damaged wire harness. Check for a blown fuse or a defective circuit protector (always replace the fuse with the
