figures of the day as well as reports by journalists. The work also contains photographs of engines and vehicles as well as diagrams of various gas turbine engines.

The aviation history of German aircraft from the very early days to the present. Details of around five hundred and twenty four aircraft. From the 1st. World War types and the 2nd. World War aircraft. Fighters, bombers, reconnaissance, trainers, civil types. Landplanes, seaplanes, airships, rockets, bombs - lots of stuff. An archive of information. The series of books comes in four volumes. In

# Get Free Leopard Engines

this volume some of the larger companies include: - Junkers - Klemm - LFG Roland - Lippisch - LVG - Messerschmitt plus many others. There are around 524 pictures & 195 plan diagrams. Details on some one thousand and fourteen individual aircraft - Enjoy.

A detailed history of Junkers aircraft. From their very early years, through the war years and beyond. Specifications on performance, dimensions, weights, engines, armament, prototypes, first flights, plus other relevant details.

This book records 3,116 types of aircraft in which British aero-engines were flown, including examples of the many foreign-

# Get Free Leopard Engines

built aircraft. It is the first serious attempt to link these engines, their design and development with the aircraft which they powered. There are 873 types of engine reviewed in the book which were built and flown in Britain up to 1955. The working day of the big, powerful and noisy piston aero-engine may now seem to be almost over, but this book is also a reminder that the ancestry of the present huge jet engines goes back to the supercharger, the principal mechanical means by which the piston engine developed its great power.
