Those who have made the switch from a Windows PC to a Mac have made Switching to the Mac: The Missing Manual a runaway bestseller. The latest edition of this guide delivers what Apple doesn't--everything you need to know to successfully and painlessly move your files and adapt to Mac's way of doing things. Written with wit and objectivity by Missing Manual series creator and bestselling author David Pogue, this book will have you up and running on your new Mac in no time.

This definitive guide starts by helping you to understand the macOS system from the ground up. You'll extend your knowledge of managing, configuring, and administering your macOS environment through expert tips and techniques. The book will enable you to realize the full potential of the latest macOS features and be prepared for the ACSP exam.
