Mesopotamian mythology refers to the myths, religious texts, and other literature that comes from the region of ancient Mesopotamia in modern-day West Asia. In particular the societies of Sumer, Akkad, and Assyria, all of which existed shortly after 3000 BCE and were mostly gone by 400 CE. These works were primarily preserved on stone or clay tablets and were written in cuneiform by scribes. Several lengthy pieces have survived, some of which are considered the oldest stories in the world, and h

Stories describing creation are prominent in many cultures of the world. In Mesopotamia, the surviving evidence from the third millennium to the end of the first millennium B.C. indicates that although many of the gods were associated with natural forces, no single myth addressed issues of initial creation. It was simply assumed that the gods existed before the world was formed.
