In this stimulating collection of studies, Dr. Arendt, from the standpoint of a political philosopher, views the crises of the 1960s and early '70s as challenges to the American form of government. The book begins with "Lying in Politics," a penetrating analysis of the Pentagon Papers that deals with the role of image-making and public relations in politics. "Civil Disobedience" examines the various opposition movements from the Freedom Riders to the war resisters and the segregationists. "Thoughts on Politics and Revolution," cast in the form of an interview, contains a commentary to the author's theses in "On Violence." This edited volume focuses on what Hannah Arendt famously called "the *raison d'être* of politics": freedom. The unique collection of essays clarifies her flagship idea of political freedom in relation to other key Arendtian themes such as liberation, revolution, civil disobedience, and the right to have rights. In addressing these, contributors to this volume juxtapose Arendt with a number of thinkers from Isaiah Berlin, John Rawls and Philip Pettit to Karl Marx, Frantz Fanon and Geoffroy de Lagasnerie. They also consider the continuing relevance of Arendt's work to some of the most dramatic events in recent years, including the current global refugee crisis, the Arab uprisings of the 2010s, and the ongoing crisis of liberal democracy in the West and beyond. Contributors include Keith Breen, Joan Cocks, Tal Correm, Christian J. Emden, Patrick Hayden, Kei Hiruta, Anthony F. Lang Jr., Shmuel Lederman, Miriam Leonard, Natasha Saunders, William Smith, and Shiyu Zhang.
