Ozzy & Drix is an American animated television series based on the 2001 film Osmosis Jones. It centers on Osmosis "Ozzy" Jones, a street-smart white blood cell, and Drix, a stoic cold pill, who battle germs and viruses inside the body of teenage boy Hector Cruz. The series is set in a stylized version of the human body, which resembles a city where microorganisms and cells are anthropomorphic.

The danger we face when we use them is that they can also cause us to misunderstand the subtleties of a system. For example, a city and a body can be compared, but it would be dangerous for us to assume that our government is "the brain" while the citizens are mere leukocytes (like Osmosis Jones) who should do what the brain tells them.

Unlike other films set inside the human body (see *Fantastic Voyage* and *Innerspace* in this data base), where human beings are somehow shrunk in order to explore another human's interior, *Osmosis Jones* personifies the microscopic, keeping Frank's conscious world and the rather more sophisticated somatic one separate, though interdependent. While the somatic narrative is about politics and urban management and the redemption of heroes, it is also a reasonably coherent and complex depiction ...
