Written around 380 BC, The Republic work is an important contribution to the age old question of how to best structure a society in a just way. Presented in the form of a dialogue between Socrates and three different interlocutors, it is an enquiry into the notion of a perfect community and the ideal individual

Answer

within it. It is considered Plato's best-known work and has proven to be one of the most intellectually and historically influential works of philosophy and political theory. One of the most important books ever written on the subject of philosophy and political theory. An essential read for any student of philosophy or political science.

China Pop is a highly original and lively look at the ways that contemporary China is changing by Jianying Zha, a critic hailed in *The Nation* as "incisive, witty and eloquent all at once--a sort of female, Chinese Jonathan Spence." From her constant contact (and, in many cases, friendships) with a dynamic group of young novelists, filmmakers, and artists in China, Zha examines a wide range of developments largely unknown to Western readers: the careful planning of television soap operas to placate popular unrest after Tianamen, the growth of the sex tabloid and pornographic industries, the new generation of entrepreneurs successfully bringing to the mainland techniques of Hong Kong and the West, and the politics behind the censorship and commercial success of the film director Chen Kaige (*Farewell My Concubine*) and Zhang Yimou (*Ju Dou* and *Raise the Red Lantern*). Praise for *China Pop*: "One of the twenty-five best books of 1995." —Voice Literary Supplement "[A] photographic, a freeze-frame, of a country in rapid motion... [Zha is] a young writer with many arresting ideas and, from the evidence of *China Pop*, a bright literary future as well." —New York Times "Perceptive... What *China Pop* so brilliantly chronicles is the commercialization of China's cultural world and the anxiety that change is causing in China's intellectuals." —Christian Science Monitor "By far the best book on Chinese urban culture after the 1989 Beijing massacre. [Zha] brilliantly combines the eye for detail of an insider with the detached perspective of an outsider. Her lively and graceful style make the book as enjoyable as it is edifying." —Perry Link, author of *Evening Chats in Beijing* "An absorbing and revealing book. With the familiarity of an insider and the ability of an outsider to step back and reflect, Zha... captures the fundamental paradoxes lying at the root of this mutant 'people's republic' in the throes of reform." —Orville Schell, author of *Mandate of Heaven*

A joint FAO and World Bank study which shows how the farming systems approach can be used to identify priorities for the reduction of hunger and poverty in the main farming systems of the six major developing regions of the world.

High-stakes public examinations exert a dominant influence in most education systems. They affect both teacher and student behavior, especially at the middle and upper levels of secondary education. The content of past examinations tends to dictate what is taught and how it is taught and, more important, what is learned and how it is learned. By changing aspects of these examinations, especially their content and format, education systems can have a strong positive impact on teacher behavior and student learning, help raise student achievement levels, and better prepare students for tertiary-level education and for employment. Examination agencies, many of which have followed the same procedures over decades, can learn from the successes and failures of other systems. This book addresses current issues related to the development, administration, scoring, and usage of these high-stakes public examinations, identifying key issues and problems related to examinations in many emerging market economies as well as in advanced economies. The book's primary audience consists of public examination officials on national, regional, and state examination boards, but the book should also be of interest to senior education policy makers concerned with certification and learning achievement standards, to academics and researchers interested in educational assessment, to governmental and education agencies responsible for student selection, and to professionals at development organizations. "This extremely well-written and comprehensive book offers a timely review of the diversity of public examination practices worldwide; of the tensions between examinations and learning; and of the technical expertise involved in the creation of valid, reliable, and fair assessments. It reminds us that as "the diploma disease" takes hold with an ever-greater intensity at every stage of education worldwide, and the commercial business of testing flourishes, those concerned with educational quality and meaningful

Answer

learning must be on guard to prevent the assessment tail wagging the educational dog.†? Angela W. Little, Professor Emerita, Institute of Education, University College London “This book is very well structured and written and draws on the authors’ remarkable global knowledge across countries and histories. It will be a great asset both to administrators responsible for examinations and to academics and other professionals who seek to understand the nature and impact of examinations of different types and in different settings.†? Mark Bray, UNESCO Chair Professor of Comparative Education, University of Hong Kong; and former Director, UNESCO International Institute for Educational Planning “I am sure that *Public Examinations Examined*, which thoroughly analyzes the practice of public examinations in different countries and makes profound and well-grounded conclusions, will arouse very great interest and will serve to further improve public examinations.†? Victor Bolotov, Distinguished Professor, Higher School of Economics, National Research University, Moscow; member, Russian Academy of Education; and former Deputy Minister of Education, Russian Federation

The unforgettable saga of one enslaved woman's fight for justice--and reparations Born into slavery, Henrietta Wood was taken to Cincinnati and legally freed in 1848. In 1853, a Kentucky deputy sheriff named Zebulon Ward colluded with Wood's employer, abducted her, and sold her back into bondage. She remained enslaved throughout the Civil War, giving birth to a son in Mississippi and never forgetting who had put her in this position. By 1869, Wood had obtained her freedom for a second time and returned to Cincinnati, where she sued Ward for damages in 1870. Astonishingly, after eight years of litigation, Wood won her case: in 1878, a Federal jury awarded her \$2,500. The decision stuck on appeal. More important than the amount, though the largest ever awarded by an American court in restitution for slavery, was the fact that any money was awarded at all. By the time the case was decided, Ward had become a wealthy businessman and a pioneer of convict leasing in the South. Wood's son later became a prominent Chicago lawyer, and she went on to live until 1912. McDaniel's book is an epic tale of a black woman who survived slavery twice and who achieved more than merely a moral victory over one of her oppressors. Above all, *Sweet Taste of Liberty* is a portrait of an extraordinary individual as well as a searing reminder of the lessons of her story, which establish beyond question the connections between slavery and the prison system that rose in its place.

Gathers a wide selection of poems by British and American authors, including Frost, Ginsberg, Graves, Eliot, Hardy, Shakespeare, Tennyson, Wordsworth, and Auden.
