Major events of human prehistory such as the post-glacial recolonisation of Northern Europe and the spread of agriculture through the Mediterranean took place on landscapes that are now, at least partially, underwater. Large parts of this submerged terrain are accessible to divers and can be investigated archaeologically. Prehistoric underwater research has emerged in recent decades as a distinct sub-discipline, developing approaches and methodologies that can be applied in coastal regions worldwide. As a result there is growing awareness of the potential for underwater archaeology to transform our ideas about the course of prehistory. This volume examines existing practice and new developments in the field of submerged prehistoric landscape research. The 25 peer-reviewed contributions from leading authors cover the results of recent research on three continents and the application of methodologies and techniques for site discovery, investigation and interpretation.

The study of Old Testament criticism requires the bridges of an important cultural gap because the home of the method and the place of its most creative use is still Germany. In this authoritative work, British scholar John Rogerson discusses two specific questions: how did the critical method arise in Germany in the nineteenth century, and how was its reception into England affected by the theological and philosophical climate? This is the first book which attempts to trace in such detail the impact of German critical method upon scholarship in England. As such it is a valuable contribution to the history of Old Testament scholarship and to the history of ideas. Part I examines German scholarship from 1800-60, from the founder of modern criticism, W. M. L. de Wette, through to the submergence of this early radicalism by the so-called positive criticism, and the confessional orthodoxy led by Hengstenberg. Part II investigates the use of Old Testament criticism in England with particular attention to contacts between Germany and England and to a comparison of the respective intellectual climates. Part III focuses

again on German scholarship, particularly on the rebirth of de Wettian ideas, as expressed by Julius Wellhausen. It explains how the reception of Wellhausen in England involved a modification of his position in the light of neo-Hegelian philosophy.

This booklet hardly needs a preface; the contents, I think, speak for themselves. It contains a short and carefully brought up to date resume of all that I, as a private University Lecturer in Amsterdam, have tried to teach my pupils. It is intended as a general introduction to ethnomusicology, before going on to the study of the forms of separate music-cultures. I sincerely hope that those, who wish to teach themselves and to qualify in this branch of knowledge, will find a satisfactory basis for self tuition in the matter here brought together. Regarding the possibility of a new edition, any critical remarks or information as to possible desiderata would be very gratefully received. J. K. PREFACE TO THE SECOND EDITION My request for critical remarks and desiderata has not been ignored. My sincere thanks to all who took the trouble to let me know what they missed in my booklet. Through their collaboration the contents have undergone a considerable improvement and enlargement as compared to the original edition issued in 1950 by the Royal Tropical Institute, Amsterdam, under the title 'Musicologica'. I have taken care to add many particulars from non-European sources, with the result that now the book is no longer so Europe-centric as it was.

Something odd is going on at the Fetch Brothers Golf Spa Hotel. Receptionist Bryony Mailer has noticed a definite tendency towards disappearance amongst the guests. She's tried talking to the manager, she's even tried talking to the owner who lives in one of the best cottages in the grounds, but to no avail. And then a tall, loping remarkably energetic guest (wearing a fetching scarf and floppy hat) appears. The Fourth Doctor thinks he's in Chicago. He knows he's in 1978. And he also knows that if he doesn't do something very clever very soon, matters will get very, very out of hand.
