I updated to Symbian Anna and looks like some effort has gone into the Adobe Reader, it's noticeably faster for a file that is 20 mb in size. And it reformats quicky and I can use the multi-touch to zoom. Still no full-screen though which sucks major! I don't know why. Anyways - I got this email saying I could upgrade to LE 2.5, for \$10.

I was then lucky enough to get a Pocket PC for Christmas. But Pocket PCs do not come with a CHM Reader, and the ones available on the web are not free, or do not handle large CHM files well. So I decided to write my own and this is the result. A free CHM Reader which can handle large CHM files (Tested up to 14Mb in size). This program has only ...

The simplest app for bookmarking is the Pocket Reader Offline. The app works by silently monitoring for a clipboard action. Whenever you wish to save an article for offline reading, just copy the link to clipboard and it automatically pops up a floating button where you can either download it to read later or preview it in the app.
