Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

CK-12 Biology Teacher's Edition complements the CK-12 Biology Student Edition FlexBook.

Everything students need to know to succeed on the GED, the most commonly taken high school equivalency exam. The GED (General Educational Development) tests provide hundreds of thousands of people each year with the opportunity to earn the equivalent of a high school diploma—it is still by far the most popular high school accreditation test in the United States. The GED includes tests in 4 areas- Reasoning Through Language Arts, Mathematical Reasoning, Science, and Social Studies. GED Test Prep, 2022 continues to be fully aligned with the newest exam requirements and provides in-depth content review for all sections of the GED, plus expert advice on manageable ways to approach and conquer the exam. Note that as of April 2020, the GED is proctored in all but the following 10 states-

The Review Guide for NLN-RN Pre-Entrance Exam provides an overview of the math, science, and verbal content necessary for admission to AD and BS programs in nursing. Includes approximately 1000 questions and 3 practice exams in each of the three areas: math, science, and verbal. Also includes helpful tips for test preparation and for becoming a more effective learner and test taker.
