Jack Canfield is a master motivator, world-renowned teacher, and bestselling author of The Success Principles. In his latest book, Success Affirmations, he helps readers break through to new levels of passion, purpose, and prosperity with 52 affirmations and time-tested wisdom. In our 24/7 world, where we move at warp speed, sometimes we let life happen to us instead of taking control of our direction. Other times, we suffer from information overload, and we fail to consciously control our positive thoughts, and we allow negativity to take over. For those who want to rise above, to get unstuck, or to catapult to a new level success, Jack Canfield will show you how positive affirmations can transform your life in extraordinary ways. Canfield, with the help of esteemed coauthors Kelly Johnson and Ram Ganglani, explains what positive affirmations are (and what they are not), why they are so effective, and how to effortlessly integrate their practice into your life. Pulling the most effective tenets from his bestselling book The Success Principles, Canfield covers all areas of life, from financial prosperity and creative pursuits to your career and positive relationships. Success Affirmations reveals: How to avoid letting life just happen to you, and how to proactively go after your dreams How to use the power of deliberate thought to create the reality you want How to identify your true passions and purpose to direct your affirmations to concrete goals, not nebulous ideas or someone else's vision How to harness positive energy to attract what you want in your life through the Law of Attraction How to unplug from technology and plug into your true source of energy And much more!

Your aim in life should be to achieve all of the wonderful things that are possible for you. There is no reason for you not to be earning twice as much as you are today, or even five or ten times as much. Your potential is practically limitless. If you could just learn how to utilize it. Clarity, Focus, and Concentration: Three strong, simple attributes needed to hone in your potential and hit the bull's eye! And just as you can develop your physical muscles through hard work and concentration, you can develop your mental muscles through continuous repetition. You have the ability right now to achieve more than you ever have before. Bull's Eye will teach you how to unleash your powers for success and accomplish more in the next few months than many people do in a lifetime.
